## about us

The Standard Group of Companies is a turnkey equipment solution provider for the Pharmaceutical and API/Bulk Drugs, Chemical, Agrochemical, Biotechnology, Life Science and Food industry sectors.

Standard is headquartered in Hyderabad, India and together with UK innovation and service centre, is one of the leading manufacturers of glass lined and stainless steel process equipment.

We specialise in providing complete turnkey solutions with exceptional customer service. We design, manufacture, assemble, test, install and commission all types of process equipment products from Reactors to Agitated Nutsche Filter Dryers, Thermal Control Units to Barrier Isolators.

## our facilities

Ideally positioned to serve the growing chemical and pharmaceutical markets in India, the company operates from nine world class manufacturing facilities.

We have the in-house capability to manufacture stainless and exotic/nickel alloy equipment and vessels up to 30,000 litres capacity and glass lined carbon steel equipment and vessels to 16,000 litres. All are manufactured cGMP and cGAMP to national and international standards including ASME, ANSI, DIN, PED, CE and ISO.

Standard also has multiple satellite offices and service centres in Mumbai, Vizag, Chennai and Pune together with a UK office and service centre in Sheffield for the management of export orders.

## our services and expertise

The team at Standard has decades of industrial experience designing, manufacturing and installing innovative, technologically advantageous and commercially attractive process equipment.

Their knowledge spans practically all applications in the Pharmaceutical and API/Bulk Drugs sector from scaled pilot plant laboratory equipment to integrated barrier isolators for production tablet coating machines.

In addition to our internal team of professionals, Standard has a team of on-site engineers who perform installation, commissioning and site acceptance testing (SAT's) with the client. We extend our value adding on-site services to include 'equipment healthcare' management contracts involving the annual service, repair and certification of barrier isolators of any manufacturing origin.

### Valves & Pump Systems

### Glass Lined & Stainless Storage Tanks

### Rotary Cone Vacuum Dryers

### Heat Exchangers

## our group of companies

For full information about the Standard Group of Companies, including our technical strengths, experience, products, services, capabilities and facilities, please visit:

or the respective company website's shown to the left.

## our products

Generic Equipment	Type / Configuration Details
Reactors	Glass Lined, Stainless and Nickel/Exotic Alloy designs to CE and AE specs.
API /Bulk Drug Barrier Isolators	Equipment integrated or stand alone isolator designs including; Dispensing & Sampling, QC, Reactor Charging, ANFD Discharge, Filtration and Drying, Centrifuges, Powder Processing, Weighing and Pack-off
Formulation Barrier Isolators	Equipment integrated or stand alone isolator designs including; Weighing and Dispensing, Sieving, Granulation, QC, Milling & Blending, Weighing and Pack off
Dryers	Agitated Nutsche Filter (ANFD), Rotary Vacuum Cone (RVCD), Rotary Vacuum Paddle (RPVD), Vacuum Tray (VTD) and Conical Mixers (Nauta type)
Filters	Pressure Nutsche, Candle, Leaf and Agitated Nutsche (ANF)
Thermal Control Units	Single Fluid Heating & Cooling Systems (SFHCS), Purified Water & Hot Water Generators
Receivers	Glass Lined, Stainless and Nickel/Exotic Alloy designs to CE and AE specs.
Blenders, Agitators & Mixers	Vertical and Horizontal designs
Distillation Columns	Vertical designs
Storage Tanks	Vertical and Horizontal designs
Pumps	Dry Vacuum, Roots Boosters, Rotary Lobe
Stainless Steel Products	Valves, Reactor Samplers, Heat Exchangers & DeLumpers.
Glass Lined Products	Valves, Flanges, Pipework, Pipe Fittings, Impellers, Paddles & Shafts
Mechanical Seals	Rotary mechanical Seals for GLR's, SSR's, ANFD's, Centrifugal pumps, Seal support systems.

### Glass Lined & Stainless Reactors & Receivers

### Agitated Nutsche Filter Dryers

### Heating and Cooling systems

### Barrier Isolators
